Text sample 12 point

To best exhibit the properties of a typeface, construct
a sentence that includes all 26 letters of the alphabet
(known as a pangram); the ultimate example of which is
achieved using each letter just once, typically resulting
in quite a bizarre sentence. The preceding sentence is
a pangram, and unusually makes perfect sense, but it's
very long at 253 characters.

Text sample 9 point

To best exhibit the properties of a typeface, construct a sentence that
includes all 26 letters of the alphabet (known as a pangram); the ultimate
example of which is achieved using each letter just once, typically resulting
in quite a bizarre sentence. The preceding sentence is a pangram, and
