Text sample 12 point

To best exhibit the properties of a
typeface, construct a sentence that includes
all 26 letters of the alphabet (known as
a pangram); the ultimate example of which
is achieved using each letter just once,
typically resulting in quite a bizarre
sentence. The preceding sentence is a
pangram, and unusually makes perfect sense,
but it's very long at 253 characters.

Text sample 9 point

To best exhibit the properties of a typeface, construct
