Text sample 12 point

To best exhibit the properties of a typeface,
construct a sentence that includes all 26 letters
of the alphabet (known as a pangram); the
ultimate example of which is achieved using
each letter just once, typically resulting in quite
a bizarre sentence. The preceding sentence is a
pangram, and unusually makes perfect sense,
but it's very long at 253 characters.

Text sample 9 point

To best exhibit the properties of a typeface, construct a sentence
