Text sample 12 point

To best exhibit the properties of a typeface,
construct a sentence that includes all 26
letters of the alphabet (known as a pangram);
the ultimate example of which is achieved
using each letter just once, typically resulting
in quite a bizarre sentence. The preceding
sentence is a pangram, and unusually
makes perfect sense, but it's very long at
253 characters.

Text sample 9 point

To best exhibit the properties of a typeface, construct a
sentence that includes all 26 letters of the alphabet (known
as a pangram); the ultimate example of which is achieved
using each letter just once, typically resulting in quite a
bizarre sentence. The preceding sentence is a pangram,
and unusually makes perfect sense, but it's very long at 253
characters.
